1. In the present report, reference is made to the following documents:

D1: US 4 442 019 A (MARKS ALVIN M)

Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability;  
citations and explanations supporting such statement

The problem addressed by the present invention can consequently be regarded as that of simplifying the manufacture of electrical components.

- 2.2 The solution to the above problem, as proposed in claim 1 of the present application, involves an inventive step (PCT Article 33(3)). The reasons are as follows:

none of the cited documents discloses the subject matter of claim 1 or renders said subject matter obvious.

- 2.3 Claims 2-6 are dependent on claim 1 and, in consequence, likewise satisfy the requirements of the PCT in respect of novelty and inventive step.
